

Brand Name: BONGYRAB-DSR

Composition: Rabeprazole 20 mg + Domperidone 30 mg SR Tablets

General Information

BONGYRAB-DSR is a high-quality product from Bongyn Bioscience Pvt Ltd, scientifically designed to manage gastrointestinal conditions effectively. This combination of Rabeprazole and Domperidone provides relief from acid-related disorders and promotes smooth digestion. Manufactured with precision, BONGYRAB-DSR ensures optimal quality and meets the highest safety standards.

Drug Class

- **Rabeprazole:** Proton Pump Inhibitor (PPI) that reduces stomach acid production.
- **Domperidone:** Dopamine antagonist that enhances gastrointestinal motility and prevents nausea.

Indications and Uses

BONGYRAB-DSR is indicated for:

- Managing gastroesophageal reflux disease (GERD).
- Treating acid reflux and heartburn.

- Preventing nausea and vomiting.
 - Relieving symptoms of indigestion and bloating.
 - Supporting recovery from peptic ulcers.
-

Common and Less Common Side Effects

Common Side Effects:

- Headache
- Dizziness
- Stomach pain
- Dry mouth

Less Common Side Effects:

- Allergic reactions (rash, itching)
 - Diarrhea
 - Constipation If side effects persist or worsen, consult your doctor immediately.
-

Doses and Administration

- **Recommended Dose:** One tablet daily or as prescribed by your doctor.
 - Swallow the tablet whole with water, preferably before a meal.
 - Do not chew or crush the tablet.
-

Warnings and Precautions

- Consult your doctor before use if you have liver or kidney problems.
 - Avoid using the product if you are allergic to any of its ingredients.
 - Not recommended for use in pregnant or breastfeeding women without medical advice.
 - Keep out of reach of children.
 - Store in a cool, dry place away from direct sunlight.
-

Drug Interactions

- Inform your doctor if you are taking medications like ketoconazole, warfarin, or erythromycin, as they may interact with this medication.
- Avoid combining with other PPIs or motility enhancers unless prescribed.

Contraindications

- Known hypersensitivity to Rabeprazole, Domperidone, or any other components of the product.
 - Not recommended for patients with severe heart conditions or gastrointestinal bleeding.
-

Dos and Don'ts

Dos:

- Follow the prescribed dosage instructions carefully.
- Maintain a balanced diet to support gastrointestinal health.
- Inform your doctor about any ongoing medications or supplements.

Don'ts:

- Do not exceed the recommended dosage.
 - Do not use expired tablets.
 - Avoid self-medicating or altering dosage without consulting your doctor.
-

Before Taking BONGYRAB-DSR

- Discuss with your doctor if you are pregnant, planning to become pregnant, or breastfeeding.
 - Inform your doctor about all medications, supplements, or herbal products you are currently taking.
 - Disclose any history of liver or kidney disease, allergies, or underlying medical conditions.
-
